Questions received as of March 19, 2008:

Q. Is the required experience for the Senior Database Administrator 3 years or 5 years?

Q. The personnel qualifications for the Principal Software Engineer and the Senior Database Administrator state the education requirement as "MS or higher, or equivalent… ." If a staff member only has a Bachelor's degree in Computer Science or a related field, but the labor category requires a Master's degree, is 4 years of additional experience sufficient to constitute the 'equivalent' of a Master's degree?

A. Both questions are addressed in Amendment I to Attachment B.
